

# The Evening Star

Empire College Evening School Student Newsletter - 8th Edition - August 11, 2008

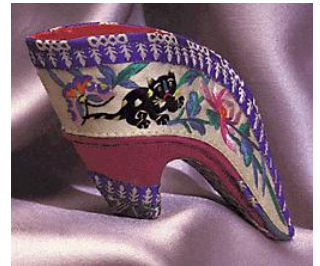

## THE DOG DAYS

## OF SUMMER!

Have you checked out the Empire Student Web Page Lately?

If you haven't yet, go to [www.empirestudent.com](http://www.empirestudent.com). Take a peek under the Student Services tab, and click on Student Web Pages, where you can find all of the previous winners of Empire College's Web Page Contest from your Introduction to the Internet class! The most recent winner is none other than the Evening Star's very own Deborah Hart-Tinsley! Her web page, titled *Fabulous Fashionable Feet*, is as informative as it is chilling! Check it out and you'll see what we mean... just look at those poor toes!!! And yes, believe it or not, the picture to the right is actually a shoe... I don't know about you but I'm voting for flip-flops!

### IMA Ethics Seminar

The IMA student chapter attended an important ethics seminar on July 17, 2008, presented by the Redwood Empire parent chapter. The students enjoyed a social hour during which they networked with accountants and dined on salads and pizza. Afterwards, a seminar was presented which covered the concepts from the IMA Statement of Ethical Professional Practice such as honesty, fairness, objectivity, and responsibility for management accountants. Students attending the seminar received a certificate for their employment portfolio.

### Summer Thoughts from Space:

"Last night as I lay in bed looking at the stars I thought, "Where the heck is the ceiling?!"

# THE DOG DAYS OF SUMMER!

## IMA Ice Cream Social... YUM!

The night students of the IMA student chapter prepared an Ice Cream Social on July 16, 2008, for the night students as an IMA fundraiser. Delicious Root Beer Floats, gooey Ice Cream Sundays, and various Ice Cream Cones were enjoyed by attendees. The accounting students, working as a team, planned the event, counted inventory, used menu receipts to record the sales, and entered the transactions in QuickBooks in order to print out financial statements for the IMA student chapter board meeting. Together, they raised almost \$100.00 for their chapter. Way to go!

## Congratulations Graduates!

The Evening Star team wishes you a world of opportunities, good fortune, and much happiness. We wish a great big Evening Star congratulations to all of the July 29, 2008, Empire College graduates! May your shining light brighten the world and may all your dreams come true!

## Tamayo House Volunteers

Thank you to everyone who helped make the Tamayo House project a huge success. Everything was donated, from paint to pillows. A great team spent many hours pulling things together at the house to help make it feel like a home for the young people who live there. The Shooting Star award goes out to all of you who made a difference!

## Somebody got married...

Happiness, Light, Laughter, Fun and Much Love! That's what Evening Star weddings look like! Congratulations to Mae Rose Bellagio, our own OB1, and James Acton, IT guy extraordinaire, for their marriage on July 5, 2008. The ceremony was a celebration of life and future happiness, and the reception was, without a doubt, the most fun dance party in the universe! Please join me in wishing them a lifetime of wonderful memories, with family and good friends.

## How do I get that job?

On July 29, 2008, the IMA Evening Star students had an opportunity to hear Lucille Inman speak on interview tactics and resume writing. As always, it was fun and enlightening! Thank you, Lucille, for joining our Star team. For those of you who could not attend, you missed some great conversation and a good bowl of ice cream! Check the Evening Star bulletin board next to the Flight Deck door for information on the next meeting, to be posted soon.

## Phenomenal cosmic importance in an itty bitty space!

Don't forget, the Flight Deck Wall of Stars still has plenty of space (no pun intended) for those special photos of your own favorite stars. Come in and take a look; we have some of the youngest stars not yet on this planet. If that doesn't make any sense to you, then you haven't seen the latest photos!

As Astro would say: "Renjoy Ra Rog Rays of Rummer!"

R2D2 and OB1
