Successful Estate Planning Attorney seeks recently admitted or seasoned attorney to associate with an established estate planning practice in Westlake Village. This is NOT an employment opportunity, but rather a chance to learn the estate planning business and develop your own law practice in an economically viable manner. This arrangement can take various forms, but my initial thought revolves around a time for space/mentoring opportunity, with overflow possibilities. I can and will guide you toward your personal success with possible affiliation/partnership in the future. Strong academic background and excellent people skills are essential. Send resume with a cover letter detailing your interest to info@CAestatelaw.com.

Thank you,

Jodi Regan
Director of Client Services
